Guided Questions for the Collaboration on Course Guides and more… Workshop 2014 Faculty Institute on Learning Technologies

1. What goals do you have for this collaboration with a librarian?

2. What do you want students to understand from your instructional collaboration with a librarian?

3. What do you expect your student to already know about research?

4. What do you want them to learn?
   a. What knowledge do you want them to gain for this collaboration?
   b. What do you want them to be able to do as a result?

5. How might you and your librarian collaborator assess students’ understanding of research?
   a. Through what evidence will students demonstrate achievement of desired results?
